Election/Restrictions

Applicant's election of Group B, claims 3-9, in the reply filed on 16 May 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The following changes were made in the claims:

Claims 1 and 2 were cancelled.

Claim 8, line 2, "1 to 6" was changed to --3 to 6--.

STATEMENT OF REASONS FOR ALLOWANCE

This application is in condition for allowance except for the presence of claims 1 and 2 to a species non-elected without traverse. Accordingly, claims 1 and 2 have been cancelled.

While some of the cited prior art references, such as Yokosawa (USN 5,528,182) disclose a similar structure to that claims, none of them disclose a circuit further including "a timing control unit for generating said first and second pulse signals in synchronism with a clock signal externally applied thereto". Since none of the cited prior art references disclose a circuit similar to that claimed, the case is in condition for allowance.
